

# Subject Index—Volumes 250–261

## A

- Accreditation. *See* Certification and accreditation in orthopedic surgery
- Acetabulum  
 augmentation in cementless hip arthroplasty, 252:167  
 deficiency states in, and bipolar hip arthroplasty, 251:119  
 dysplasia of  
   in adolescents and young adults, 261:214  
   and bone graft reinforcement of Bateman bipolar prosthesis, 251:104  
   and femoral head autograft with hip arthroplasty, 255:173  
 porous-coated prosthesis integrated into bone graft, 258:160  
 protrusion in thalassemia, 254:199  
 reaction to Bateman bipolar prosthesis, 251:87  
 reaming of, with Bateman arthroplasty of hip, 251:75  
 reconstruction with bipolar socket, 251:126  
 relation to intrapelvic vasculature, 258:193  
 replacement with bipolar component in failed hip arthroplasty, 251:113  
 revision with bipolar prosthesis, 251:100  
 salvage with bipolar prosthesis in revision total hip arthroplasty, 251:92
- Achilles tendinitis in ballet dancers, 257:257
- Achondroplasia, limb lengthening in, 250:138, 143
- Acromion pathology in rotator cuff tears, 254:39
- Acromioplasty, anterior  
   for shoulder impingement syndrome, 260:195  
   in subacromial impingement decompression, 252:150
- Acroosteolysis in Hajdu-Cheney syndrome, 255:111
- AIDS  
   and immunodeficiency virus cultured from bone, 251:249  
   and transfusion-transmitted HTLV-I-associated myelopathy, 260:191
- Alaskan natives, spondylolysis in, 250:171
- Alkaline phosphatase production in periosteal cells affected by oxygen tensions, 252:307
- American Board of Orthopaedic Surgery, 257:3
- Amputations and artificial limbs, 256:2  
   Chopart amputation  
     congenital, 256:14  
     modified, 256:44  
   computer-aided prosthesis design and manufacture, 256:39  
   and criteria for salvageable limbs, 256:80  
   feedback systems in myoelectric prostheses, 256:58  
   improved knee disarticulation technique, 256:60  
   in longitudinal deficiencies of femur in childhood, 256:29  
   myoelectric prostheses for hands, 258:9  
   recreational prostheses, 256:64  
   sarcoma amputee management, 256:22  
   and stump lengthening with Ilizarov technique, 256:76  
   Syme's amputation, 256:3  
   two-stage below-knee amputation in diabetic patients, 261:251  
   Van Nes rotationplasty with segmental limb resection, 256:7
- Analgnesia  
   continuous epidural, in knee arthroplasty, 260:30  
   patient-controlled, colonic pseudoobstruction with, 254:255
- Anaphylactic shock from chymopapain skin test, 260:186
- Anhidrosis in congenital sensory neuropathy, 258:232
- Ankle  
   arthrodesis of  
     in diabetic neuropathy, 253:209  
     internal fixation compression in, 253:212  
   arthroplasty of, 252:209  
   Bosworth fracture-dislocation of, 255:257  
   chronic lateral instability, 257:184  
   deformities in cerebral palsy, 253:55  
   dorsal antiglide plate in fractures of, 259:204  
   subtalar arthralgia from osteoid osteoma, 252:205  
   Syme's amputation in, 256:3  
   talar shift in, 257:177
- Ankylosing spondylitis  
   correction of long-curved kyphotic deformities in, 257:49  
   juvenile, 259:14, 18
- Anorexia nervosa, femoral head collapse in, 251:171
- Antibiotics  
   in bone cement in revision arthroplasty of hip, 261:19  
   newer concepts in therapy with, 261:23  
   prophylactic, and tourniquet inflation in knee arthroplasty, 260:17

- Antinuclear antibodies in juvenile arthritis, 259:23
- Arthritis
- in childhood, 259:2
  - animal models of, 259:38
  - genetic aspects of, 259:11
  - growth abnormalities in, 259:46
  - hip and knee arthroplasty in, 259:83
  - immunologic abnormalities in, 259:23
  - medical treatment of, 259:60
  - ocular complications of, 259:51
  - soluble factors affecting cartilage degradation in, 259:31
  - spondyloarthropathies, 259:18
  - surgery in, 259:70
  - synovectomy in, 259:76
- clinical course of monoarthritis, 250:241
- degenerative, *See* Osteoarthritis
- of knee, arthroscopic debridement in, 253:197
- rheumatoid
- in childhood, 259:4
  - of hip, Bateman bipolar prosthesis in, 251:82
  - surgical advances in, 258:62
  - and synovial cysts of elbow with nerve compression syndrome, 254:134
- septic
- acute, in childhood, 257:212
  - in elderly patients, 251:251
  - of knee, 252:198
  - synovial leukocytosis in, 257:226
- Arthrodesis
- ankle
- in diabetic neuropathy, 253:209
  - internal fixation compression in, 253:212
- hindfoot, in adults, 257:193
- laminoplastic posterolateral fusion for spinal canal surgery in childhood, 259:92
- of metacarpophalangeal joint of thumb, in cerebral palsy, 253:75
- patellofemoral, with knee disarticulation, 256:50
- spinal
- chylothorax after, 261:229
  - electrical stimulation affecting, 251:295
  - laminoplastic posterolateral, in childhood, 259:92
  - for Scheuermann's kyphosis, 251:134
- Arthrography compared to ultrasonography in rotator cuff evaluation, 253:118
- Arthroplasty
- ankle, 252:209
  - cement in. *See* Cement
  - elbow. *See* Elbow, arthroplasty
  - of great toe, silicone joint in, 255:268
  - hip. *See* Hip, arthroplasty
  - knee. *See* Knee, arthroplasty
  - management of exposed endoprostheses, 251:220
  - and metal-induced sarcoma, 252:299
  - and postoperative colonic pseudoobstruction in patient-controlled analgesia, 254:255
  - shoulder, unconstrained, 257:86
  - total femur and knee joint replacement, 251:166
- Arthroscopic surgery
- of knee
    - carbon dioxide in, 252:92
    - contact neodymium-YAG laser in, 252:95
    - in debridement for arthritis, 253:197
- meniscal
- in cysts, 257:154
  - in repair with exogenous fibrin clot, 252:64
  - in synovial chondromatosis of shoulder, 257:91
- Arthroscopy of anterior cruciate ligament reconstruction, 254:220
- Aspirin in juvenile arthritis, 259:60
- Athabaskan Indians, spondylolysis in, 250:171
- Auranofin in juvenile arthritis, 259:60
- Azathioprine in juvenile arthritis, 259:60

B

- Ballet dancers, Achilles tendinitis in, 257:257
- Bateman arthroplasty of hip, 251:3
- in acetabular deficiency states, 251:119
  - acetabular reaction to, 251:87
  - in acetabular reconstruction, 251:126
  - in acetabular revision, 251:100
  - for acetabular salvage in revision total arthroplasty, 251:92
  - autologous bone graft reinforcement with, 251:104
  - compared to Thompson and Moore prostheses, 251:38
  - compared to total hip arthroplasty in avascular necrosis, 261:59
  - and distraction arthroplasty of hip, 255:186
  - experience in 496 fractures, 251:7
  - in femoral neck fractures, 251:20
  - in elderly and disabled patients, 251:26
  - long-stem prosthesis in, 251:31
  - in osteoarthritis, 251:82
  - acetabular reaming and bone grafts with, 251:75
  - experience in 100 consecutive cases, 251:67
  - long-term results in, 251:54
  - in osteonecrosis of hip, 251:44
  - in severe periacetabular bone loss with failed total arthroplasty, 251:113
  - in transcervical fractures of hip, 251:48
- Bears, bone metabolism in, 255:301
- Biceps brachii muscle, *Echinococcus* infestation of, 261:247
- Biceps brachii tendon
- distal, repair followed by proximal radioulnar synostosis, 253:133
  - rupture of, and heterotopic ossification after tenodesis, 255:284
- Biceps femoris insertion, avulsion of, 259:200
- Bioceramics, properties of, 261:153
- Biomechanics
- of knee, 255:215

- in limb lengthening, 259:282
  - of patellofemoral joint, 258:73
  - of pin fixation for slipped capital femoral epiphyses, 259:277
  - Bipolar prostheses
    - Bateman. *See* Bateman arthroplasty of hip
    - DePuy, evaluation of, 254:180
  - Blade plate
    - cannulated, for proximal femoral varus osteotomy, 259:111
    - in nonunion of proximal tibial osteotomy, 250:207
  - Blauth knee prosthesis, 258:86
  - Blood
    - conservation in major orthopedic surgery, 256:299
    - transfusion of, and transmission of HTLV-1-associated myelopathy, 260:191
  - Blood flow in bone, reaction to injury and regeneration, 254:275
  - Blount's disease, 255:24
  - Bone
    - changes from radiation therapy in childhood, 251:235
    - distraction for limb lengthening, 250:8
    - formation of, cellular events in, 261:257
    - fragility during fluoride therapy for osteoporosis, 261:268
    - gamma-carboxyglutamate protein levels after fracture, 258:300
    - grafts of
      - for acetabular augmentation in cementless hip arthroplasty, 252:167
      - with Bateman arthroplasty of hip, 251:75
      - in acetabular dysplasia, 251:104
      - with bipolar components in revision hip arthroplasty, 251:113
    - cortical allografts in limb lengthening procedures, 250:150
    - hemipelvic allograft, 255:128
    - and immunodeficiency virus cultured from bone, 251:249
    - osteointegration in porous-coated acetabular prostheses, 258:160
    - patellar, for juxtaarticular defects, 256:197
    - regional programs for bone banking, 251:290
    - of tibia, posterolateral, 251:200
    - healing with dynamic compression, 256:60
  - heterotopic
    - after biceps tendon rupture and tenodesis, 255:284
    - diphosphonates affecting, 258:122
    - in intramedullary fixation of femoral fracture in CNS injuries, 256:254
    - after noncemented hip arthroplasty, 252:156
    - prevention in uncemented hip arthroplasties, 257:138
    - and resorption of demineralized bone matrix, 257:280
  - loss of
    - in distal anterior femur after knee arthroplasty, 260:135
    - in fractures, dual photonabsorptiometry of, 250:291
    - periacetabular, and bipolar components in revision hip arthroplasty, 251:113
  - metabolism in black bears, 255:301
  - morphogenetic protein
    - and chondrocyte differentiation, 258:295
    - implants in distal metaphyseal tibial nonunion, 250:234
    - and interaction of periosteum and diaphysis, 258:279
    - in neoplastic bone diseases, 259:233
    - in normal and abnormal conditions, 257:249
  - porcine, purification of, 256:229
  - postmortem activity affected by time and temperature, 259:239
  - osteoclastic resorption in periprosthetic tissues, 253:287
  - physiology of, 258:3
  - posttraumatic ectopic ossification, 255:289
  - remodeling of, transforming growth factor-beta in, 250:261
  - response to cytokines, 258:245
  - scans of. *See* Scintigraphy
  - solitary eosinophilic granuloma lesions in, 257:204
  - staining technique to detect artifactual cracking, 260:305
  - vascular repair in osteotomy gap, 257:286
  - vascular response to injury and regeneration, 254:275
  - Bone marrow grafting, percutaneous, affecting healing, 256:280
  - Bosworth fracture-dislocation of ankle, 255:257
  - Bowel disease, inflammatory, and arthritis in childhood, 259:18
  - Bursitis, prepatellar, mycobacterial, 258:209
- C**
- Calcific deposits
    - in calcifying tendinitis of rotator cuff tendon, 254:111
    - in lumbosacral intervertebral discs, 254:303
  - Calcium
    - antagonists affecting epiphyseal growth plate, 258:135
    - crystals in knee, 257:162
    - metabolism in black bears, 255:301
  - Callotaxis technique for limb lengthening, 250:105
  - Callus, cartilaginous, vessel-like structures in, 254:289
  - Carbon dioxide
    - arthroscopy of knee, 252:92
    - laser in cauterization of giant-cell tumor margins, 253:231
  - Carpal coalition, symptomatic, 251:153
  - Carpal tunnel syndrome
    - diagnostic test in, 251:157
    - inadvertent corticosteroid injection of median nerve in, 250:181
  - Cartilage
    - articular
      - changes after meniscectomy, 252:41
      - degeneration affected by growth hormone, 259:245

- degradation of juvenile rheumatoid arthritis, 259:31  
postmeniscectomy weight-bearing exercise affecting, 252:101  
preservation and storage of, 250:277  
semilunar, displaced, 260:3  
bioassay of development in, 258:295  
endochondral myelopoiesis, 261:257  
femoral condylar, sonography in osteoarthritis, 254:230  
growth-plate chondrocyte cultures, 256:286  
meniscal. *See* Meniscus of knee joints  
Cartilaginous callus, vessellike structures in, 254:289  
Catheters, peripheral Teflon, contamination of, 254:251  
Cauterization  
electrocautery for epiphyseodesis, 256:244  
of giant-cell tumor margins, carbon dioxide laser in, 253:231  
Cement  
antibiotics in  
compared to systemic antibiotics in hip arthroplasty, 253:173  
in revision arthroplasty of hip, 261:19  
fragmentation of, osteolysis from, 258:108  
polymethylmethacrylate (PMMA)  
growth hormone in, 252:294  
and prostaglandin E<sub>2</sub> in surrounding membrane, 257:305  
porosity of various acrylic preparations, 259:122  
removal from femoral canal, 253:168  
vacuum mixing systems for Simplex P, 254:261  
Ceramics, properties of, 261:153  
Cerebral palsy, 253:2  
activation of finger movement in, 250:185  
animal models of spasticity, 253:12  
ankle and foot deformities in, 253:55  
and classification of birth injuries, 253:4  
distal hamstring lengthening in, 253:35  
hip dislocations in, 253:90  
knee dysfunction management in, 253:45  
management of spastic diplegia in, 253:38  
scoliosis in, 253:100  
selective posterior rhizotomy for spasticity in, 253:20  
thumb-in-palm deformity in, 253:75  
triceps surae lengthening in, 253:30  
upper extremity in, 253:62  
Certification and accreditation in orthopedic surgery, 257:2  
and accountability in professions, 257:43  
certificates of added qualification in, 257:52  
and computer-based testing of skills, 257:47  
development in U.S., 257:11  
and fifty years of American Board of Orthopaedic Surgery, 257:3  
and graduate educational programs, 257:18  
in international fellowships, 257:61  
and medical care evaluation methods, 257:64  
recertification, 257:29  
consumer's view of, 257:38  
orthopedic surgeon's view of, 257:35  
in residency programs and fellowships, 257:57  
specialty boards in, 257:22  
Cervical spine  
instability with acroosteolysis, 255:111  
and shoulder pain, 258:142  
Chemonucleolysis  
chondroitinase ABC in, 253:301  
compared to surgery in sciatica, 251:144  
Chiari pelvic osteotomy, 254:189  
lateral femoral cutaneous nerve entrapment in, 254:270  
Chondroblastoma of rib, 251:230  
Chondrocytes  
bioassay of differentiation in, 258:295  
cultures for growth-plate defects, 256:286  
Chondroitinase ABC  
affecting rabbit intervertebral discs, 256:238  
chemonucleolysis with, 253:301  
microvascular effects of, 257:274  
Chondroma  
extraskeletal, of hand, 254:147  
periosteal, 256:185  
Chondromatosis, synovial, of shoulder, arthroscopy in, 257:91  
Chondrosarcoma after hip arthroplasty in Maffucci's syndrome, 260:212  
Chopart amputation  
congenital, 256:14  
modified, 256:44  
Chylorthorax after posterior spinal instrumentation and fusion, 261:229  
Chymopapain  
microvascular effects of, 257:274  
skin test with, anaphylactic shock from, 260:186  
Cisplatin in intraarterial chemotherapy, fat embolism from, 254:295  
Clavicle  
abnormalities in Sprengel's deformity, 258:157  
fractures in newborn, 250:176  
Cleft feet, 258:41  
Coagulation, disseminated intravascular, from nailing of pathologic fracture in prostatic carcinoma, 258:242  
Collagen  
implants of, immune responses to, 260:263  
in prostheses for meniscal regeneration, 252:129  
synthesis by healing fractures, 255:273  
Colles fracture, redislocated, external fixation or cement fixation in, 254:236  
Colon pseudoobstruction with patient-controlled analgesia, 254:255  
Compartment syndromes  
immediate care with split-thickness skin excision, 256:224  
from pseudoaneurysm of radial artery, 251:263  
in streptococcal toxic shocklike syndrome, 254:247  
Compression, dynamic, of healing osteotomies, 256:260

- Computed tomography of acute spinal cord injury, 260:176
- Computer use  
in prosthesis design and manufacture, 256:39  
in testing of patient management skills, 257:47
- Contracture  
of knee, extension, Judet quadricepsplasty in, 256:169  
of shoulder, 254:105
- Coracoacromial ligament in rotator cuff tears, 254:39
- Coracoid process in subcoracoid impingement, 254:55
- Core decompression surgery in osteonecrosis of femoral head, 261:186
- Corticosteroid therapy  
and inadvertent injection of median nerve, 250:181  
in juvenile arthritis, 259:60  
osteonecrosis of knee related to, 257:171  
and strength of intervertebral joints and vertebrae, 259:268
- Cruciate ligaments  
anterior  
arthroscopy of reconstruction, 254:220  
complications from reconstruction, 253:184  
deficiencies of, and knee function testing, 255:204  
insufficiency of, and iliotibial band reconstruction, 250:197  
nonoperative treatment of tears in, 259:192  
paradoxes in historical review of, 259:183  
reconstruction with meniscus repair, 252:55
